Regional Governance Matrix (RGM-2026)

Document ID: RGM-2026 Version: 1.4 Effective: 2026-01-01 Owner: Office of the COO

Table 2A — Regional Operational Leadership Assignments

Division	VP	Hubs	Per-Txn Limit	Annual Variance
Americas	Sarah Jenkins	Dallas, Atlanta, Mexico City	\$100,000	\$1,000,000
EMEA	Marcus Vance	Frankfurt, Amsterdam, Dubai	\$100,000	\$1,000,000
APAC	Kenji Sato	Tokyo, Singapore, Sydney	\$100,000	\$1,000,000

Section 4 — Critical Exception Approval Protocol

The incident must be assigned to the Regional Operations Vice President listed in Table 2A for the applicable region. The Regional Vice President must provide formal written sign-off before any corrective expenditure exceeding \$10,000 may be authorized. Verbal or phone approval is insufficient; a signed document must be filed in the AVL Global Incident Registry (GIR). If the designated Regional Vice President is unavailable for more than 8 hours, the matter escalates to the Chief Operating Officer.

Regional boundary clarifications: The Frankfurt hub falls under Marcus Vance's authority regardless of any prior contractual arrangements with local management.
